

PARKING

STAFF PARKING

Providing customers with convenient and accessible car parking is an integral component of Casey Central's service strategy. We ask retailers to park within the yellow car park bays located around the perimeter of the Centre's car park. Please remember that Centre shoppers should always be given access to the most convenient car parking bays.

Staff are encouraged to look for alternate means of transport to travel to and from the Centre during peak trading times (late November and December). The Centre car parks can reach capacity during these periods, and as such customers may encounter difficulty parking.

Staff that are able to, should examine options such as public transport, drop-off and pick up, and car-pooling.

CARPARK INCIDENTS

Shoppers and Staff park in the Centre Carparks at their own risk. Please note that while security will take a report of car park incidents if requested, the personal onus is on the driver(s). Incidents involving damage to vehicles should be reported to your insurer and if appropriate, the Police.

THINKING OF RIDING?

Take the opportunity to reduce your carbon footprint and get fit at the same time! We have bike cages available to all staff and full toilet and shower facilities located behind Coles. Please get in contact with us on 9768 4101 to organise access.

Did you know we have facilities that will enable you to ride to work?
