

# Casey Critter Craft

## Make Your Own Clive the Spider

### What you'll need

- Toilet roll (egg carton, cardboard – anything that can make a body)
- 4 x strips coloured paper
- Googly eyes (or can draw them if you don't have them)

### How to make your Clive

1. Glue eyes, or draw, onto the body of the spider
2. Fold the coloured paper into small alternate squares, concertina style, to make the shape of legs
3. Attach the legs to the body, either by glue, sticky tape.
